La Union Medical Center (LUMC) — User Manual

Administrative hospital system for same-day visitors, hospital visits & clinic queues, admissions & beds, parking, and administration.
This is **not** a clinical electronic medical record (no diagnoses, prescriptions, or iHOMIS).

Related docs	Purpose
This manual	Day-to-day staff use
TESTER_GUIDE.md	Acceptance testing
DEMO.md	Client demonstration script
DEPLOY.md	Hospital installation

How to use this document (for the documentation team)

- Place screenshot files in **`docs/manual-screenshots/`** using the filenames in each **Screenshot** block.
- Full capture checklist: manual-screenshots/README.md.
- Until a file exists, Markdown preview will show a broken image — that is expected.

Screenshot block format used below:

> **Screenshot `NN-name.png`** — short note on what to capture.

Then the image is embedded as:

```markdown
```markdown
![Short description](manual-screenshots/NN-name.png)
```
```

Table of contents

2. Common features (all roles)
3. Security Guard
4. Office Secretary

5. OPD & Admission Staff
6. Nursing Staff
7. Doctor
8. Administrator
9. Quick reference — who can do what
10. Tips & rules

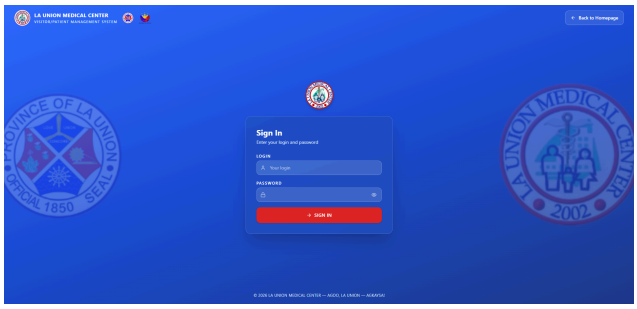

---

1. Getting started

1.1 Sign in

1. Open the LUMC website (hospital URL or `http://127.0.0.1:5173` for local testing).
2. Enter your **login** (not an email) and password.
3. Click **Sign in**.

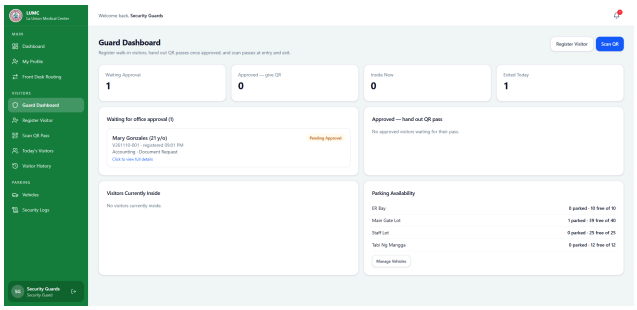

Screenshot `01-login.png` — Full login page with branding and sign-in form.

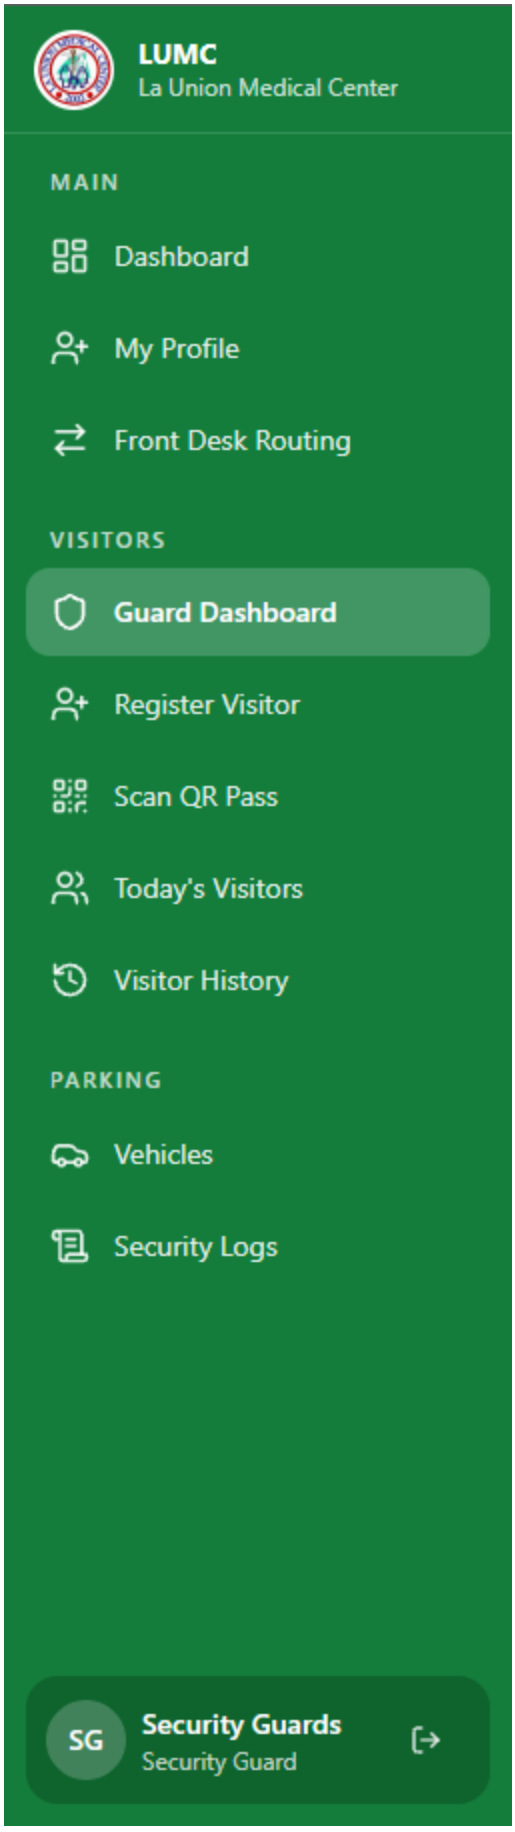

Steps / Description	Screenshot
Open the LUMC website (hospital URL or `http://127.0.0.1:5173` for local testing).	
Enter your **login** (not an email) and password.	
Click **Sign in**.	

1.2 After login

- You land on a **home page** that depends on your role (e.g. Guard Dashboard, Visitor Approvals, or Dashboard).
- The **left sidebar** only shows pages your role is allowed to use.

- Opening a forbidden page redirects you home and shows a notice that you are not allowed.

Steps / Description	Screenshot
You land on a **home page** that depends on your role (e.g. Guard Dashboard, Visitor Approvals, or Dashboard).	

The **left sidebar** only shows pages your role is allowed to use.	

Steps / Description	Screenshot
Opening a forbidden page redirects you home and shows a notice that you are not allowed.	

1.3 Sign out

Use **Logout** in the lower-left sidebar (near your name/avatar).

---

2. Common features (all roles)

Every account can use **My Profile**, **notifications**, and **Logout**. Everything else depends on **role** — see each chapter's **What you can do** / **What you cannot do**, and the quick reference table.

2.1 My Profile

Sidebar → My Profile

You may update:

- First name, middle name (optional), last name
- Contact number (optional; if filled, must be **exactly 11 digits**)
- Login and password

You **cannot** change role, office, clinic, or account status here.

> **Screenshot `03-profile.png`** — Profile form with name, login, contact fields.

2.2 Notifications

- The **bell** in the top bar shows unread count.
- The list refreshes every few seconds.
- **Click a notification** to:
  1. Mark it as read (count decreases), and
  2. Open the related page (e.g. Visitor Approvals, Clinic Queues, Waiting for Bed).
- **Mark all read** clears the unread badge.

Screenshot `04-notifications.png` — Bell dropdown open with unread items and “Open related page”.

---

3. Security Guard

Typical login: `guard`
Home: Guard Dashboard / Security

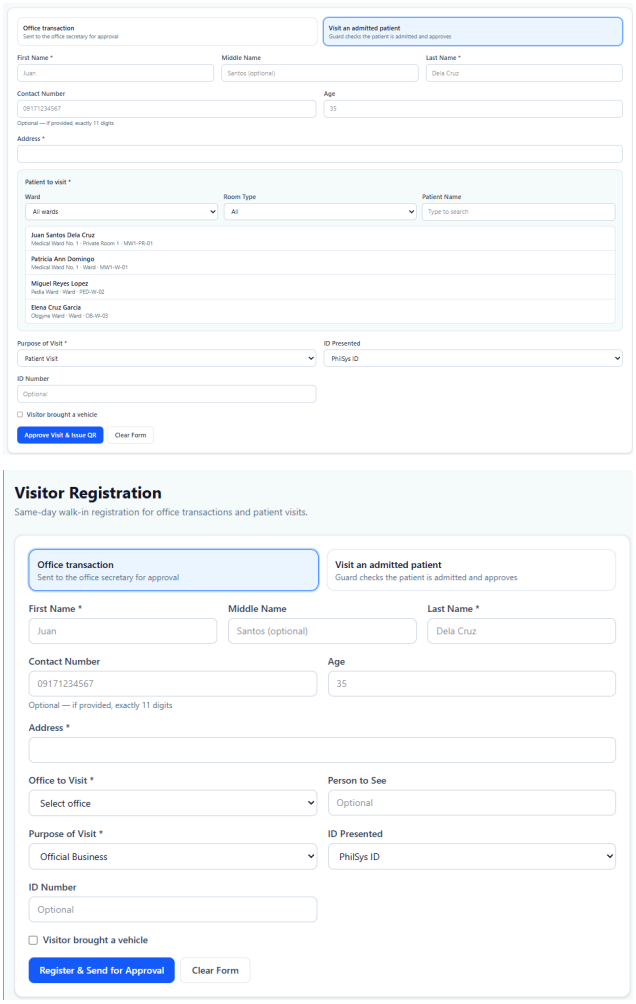

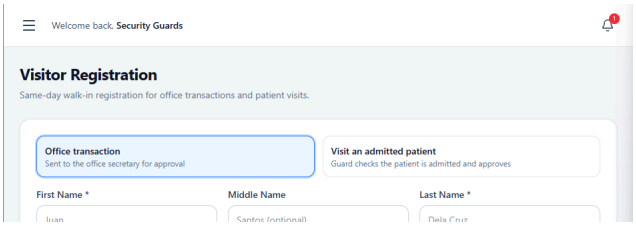

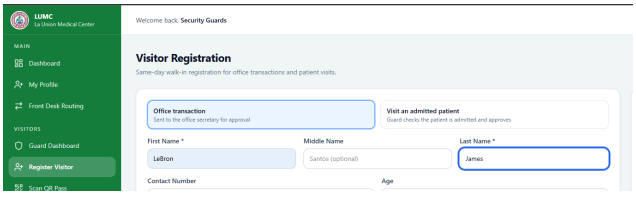

3.1 What you can do

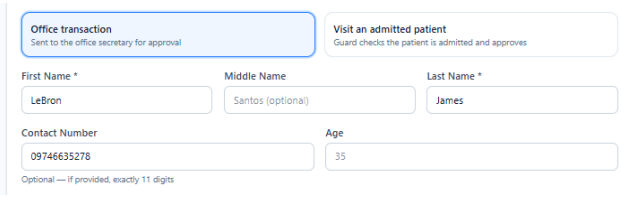

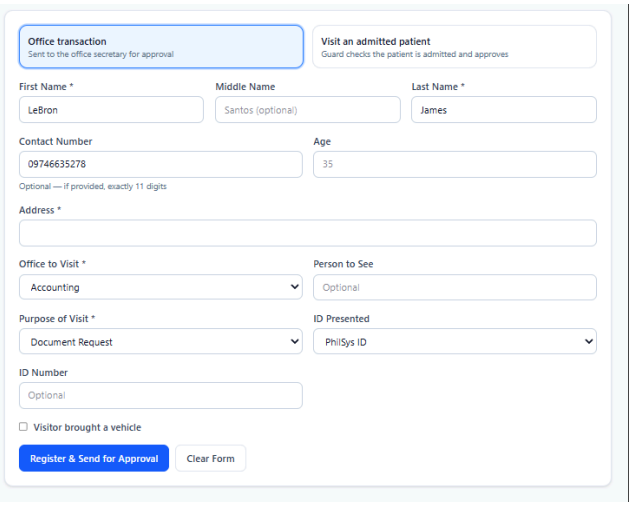

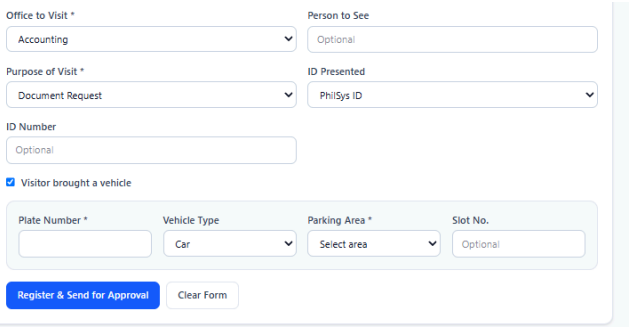

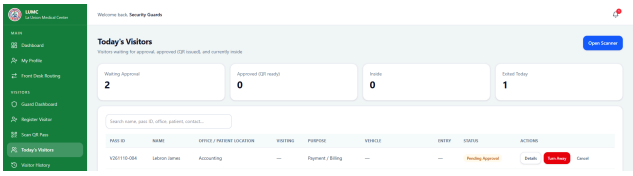

- Use **Front Desk Routing** to send people to the right desk
- Register same-day visitors (office **or** admitted patient)
- **Approve patient visitors** yourself (patient must already be in a bed)
- Issue and scan QR passes (entry / exit); turn away, cancel, or manual entry/exit on **Today's Visitors**
- Record vehicles (visitor / patient / **employee** / other) and mark exit
- View **Security Logs** (visitor/vehicle-related)

3.2 What you cannot do

- Approve or reject **office** visitors (that is the office secretary’s job)
- See or manage patients, hospital visits, clinic queues, doctors, or beds
- Open administration pages (users, reports, backups, settings, parking areas setup)
- Change your own role or another user’s account

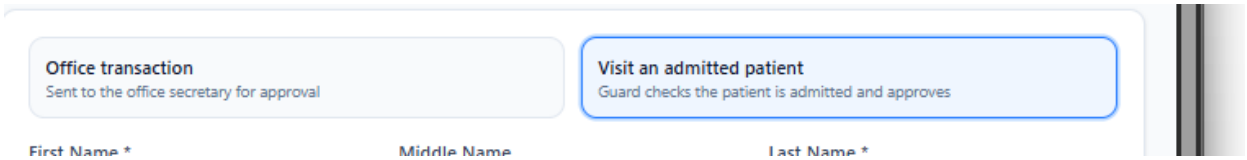

3.3 Register an office visitor

Steps	Screenshot
Visitors → Register Visitor.	
Choose either **Office or Admitted Patient transactions**.	
Enter **First name** and **Last name** (required). Middle name and contact are optional.	

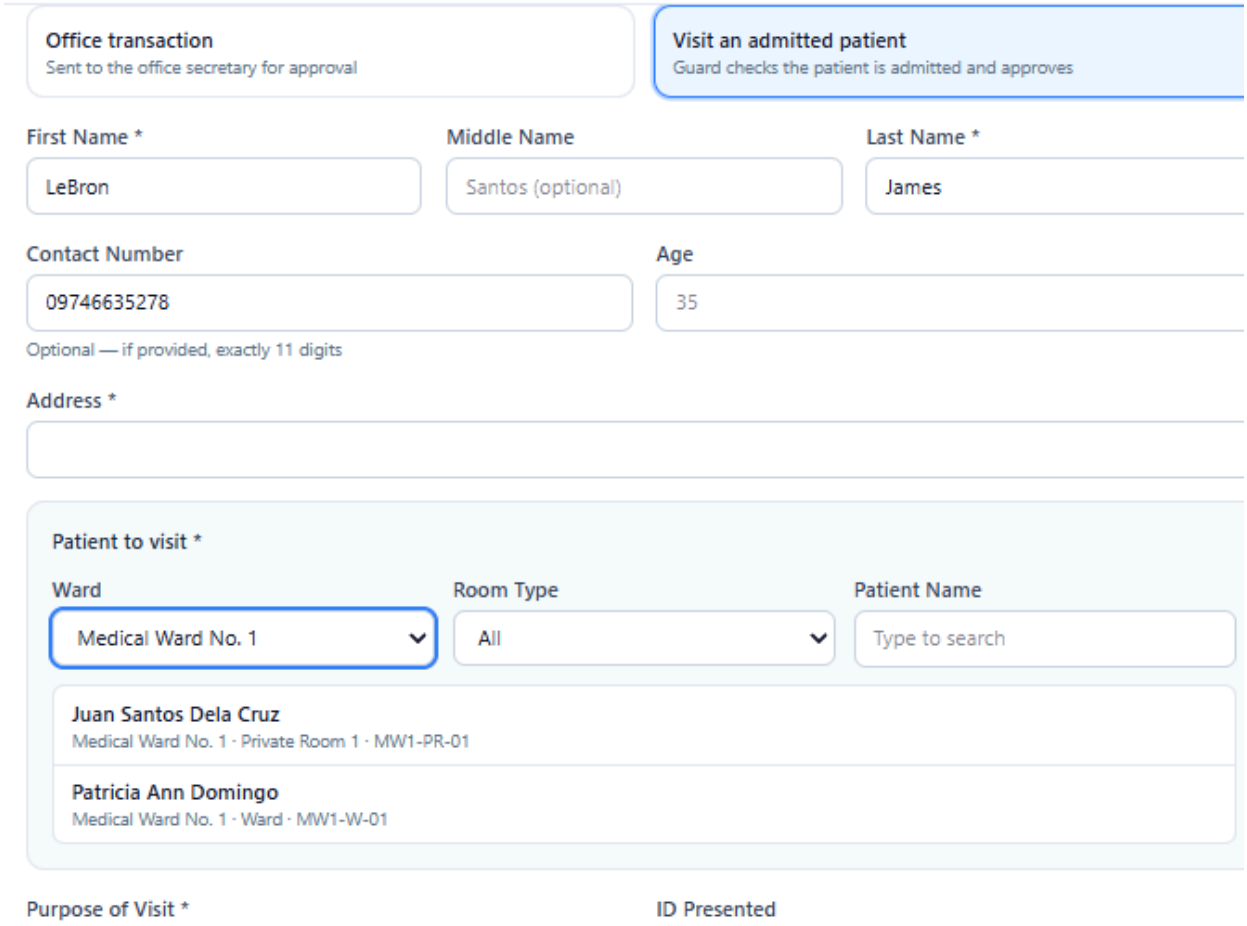

Steps	Screenshot
If you enter a contact number, use **exactly 11 digits**.	
Choose the **office**, purpose (or Other + text), ID type if needed.	
Optionally add a vehicle.	
Submit → status becomes **Pending approval** for that office's secretary.	

3.4 Register a patient visitor

1. Choose **Visit an admitted patient**.

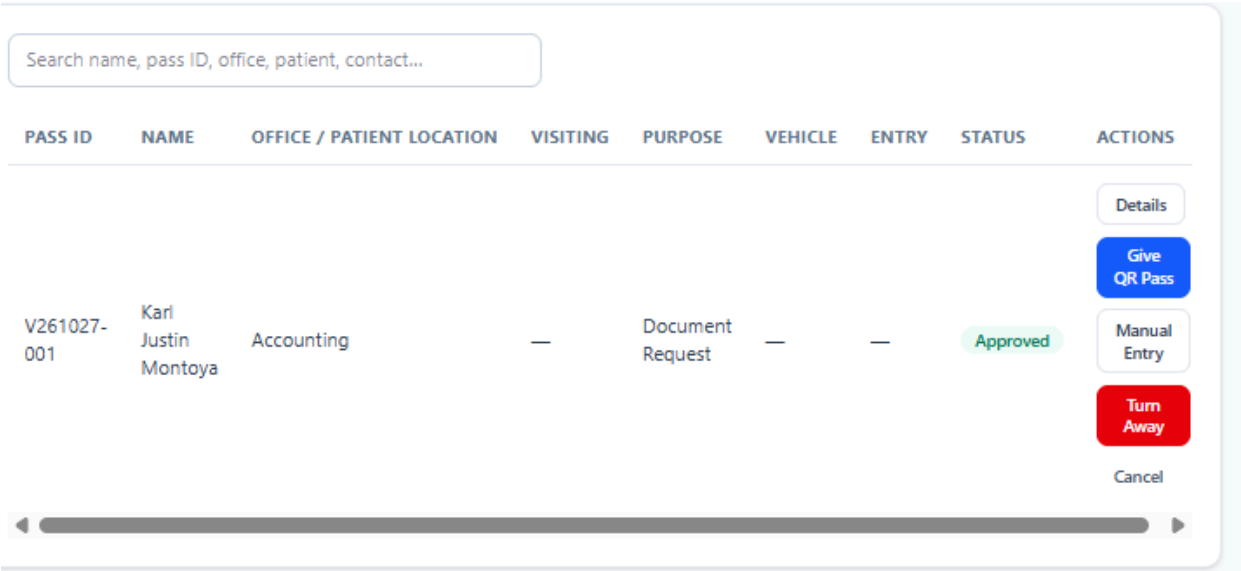

2. Filter by ward / room type / name and select the patient.

3. Fill visitor details → **Approve Visit & Issue QR** (guard approves immediately).
4. Secretaries do **not** see patient visits.

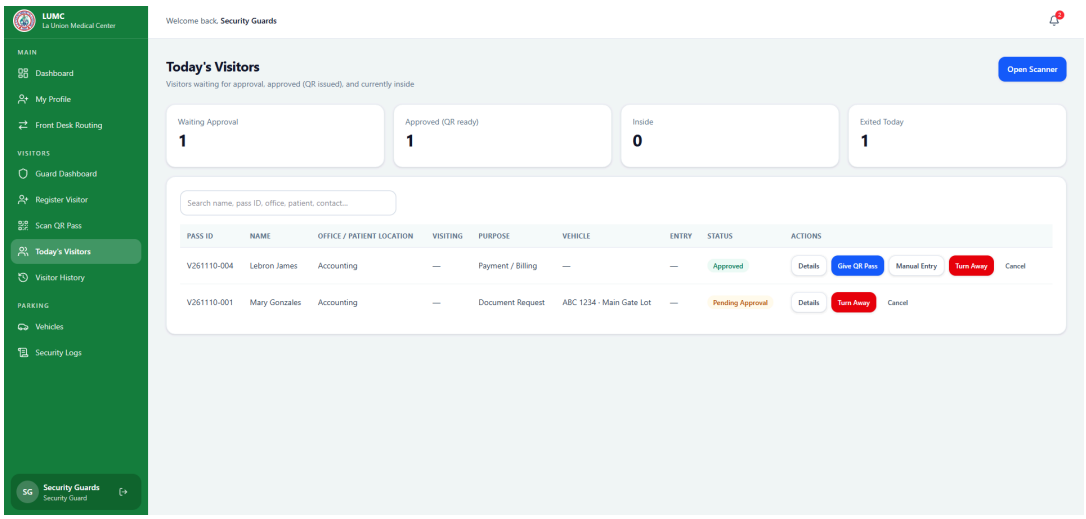

3.5 QR pass and scanning

1. After approval (office) or immediate approve (patient), open **Give QR Pass** / Visitor Pass.

2. Print or show the QR to the visitor.
3. **Scan QR Pass** — scan on entry, then again on exit.

4. A third scan is refused (pass already used).

LUMC

VISITOR PASS

La Union Medical Center · Valid today only

Visitor: **Lebron James**

Office: Accounting

Purpose: Payment / Billing

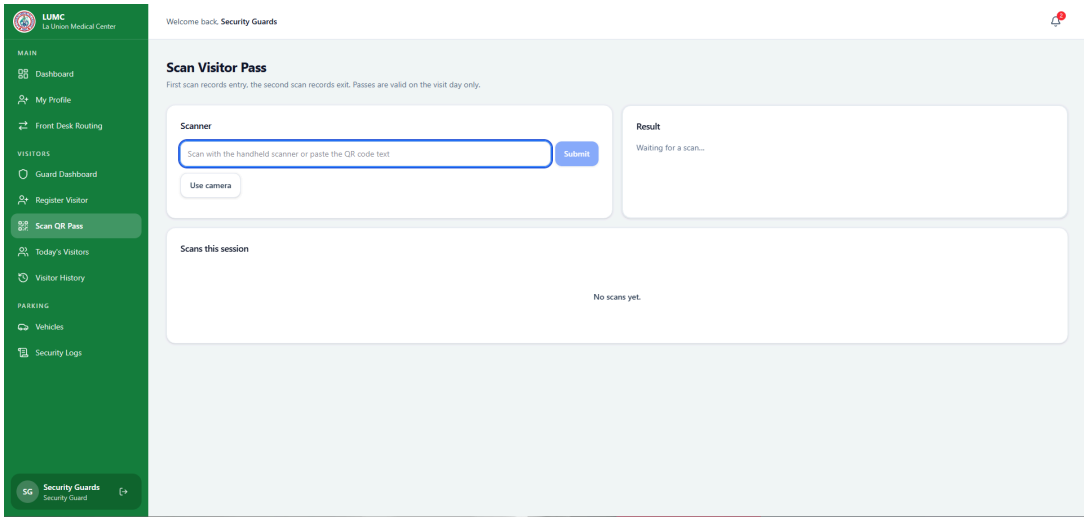

Visit Date: 2026-11-10

Pass ID: V261110-004

Status: Approved

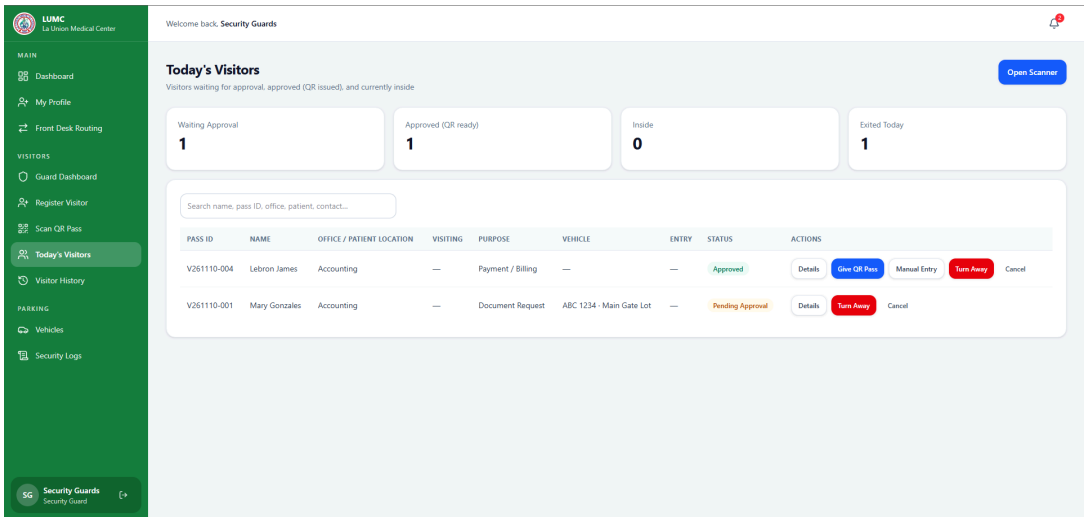

Present this QR to the guard when entering and again when leaving. It expires at the end of the visit day.

3.6 Today's Visitors

Visitors → Today's Visitors

- See waiting, approved, inside, and exited counts.
- Open **Details** for the full visitor card.
- **Turn Away** (rejection reason optional), **Cancel**, or manual entry/exit when needed.

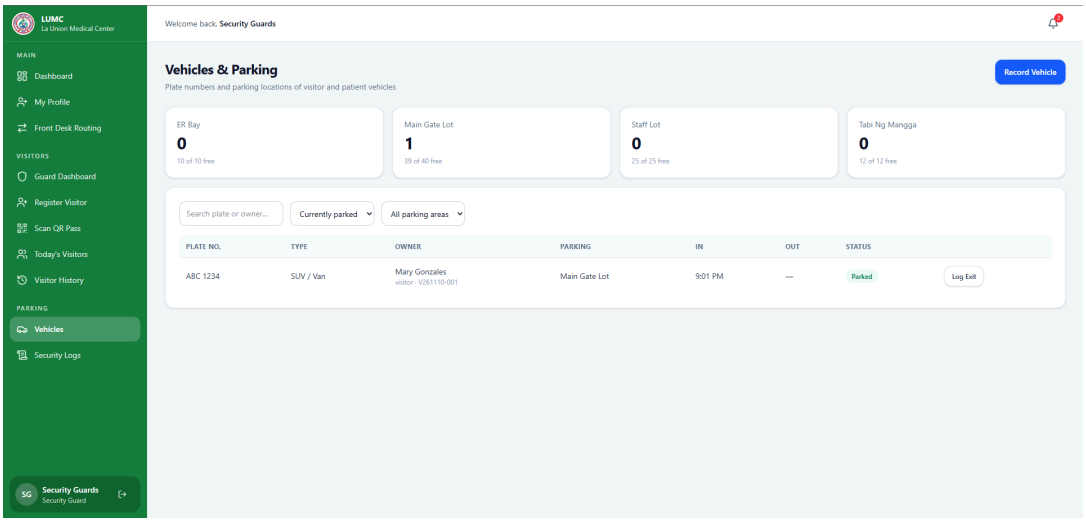

3.7 Vehicles

Parking → Vehicles → Record Vehicle

- Belongs to: **Visitor**, **Patient**, **Employee**, or **Other**.

- Plate + parking area required.

---

4. Office Secretary

Typical logins: `secretary.accounting`, `secretary.billing`, …
Home: Visitor Approvals

4.1 What you can do

- See and act on **office visitors for your office only** (the office linked to your user account)
- **Approve & issue QR** or **Reject** (rejection reason optional)
- Open the full visitor card before deciding
- Browse **Visitor History** for your office's past visits

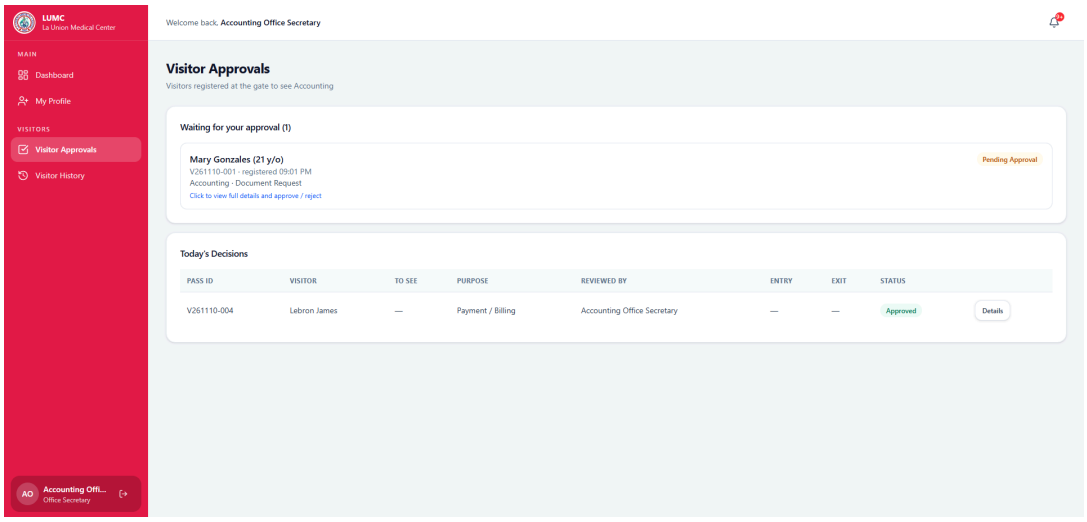

4.2 What you cannot do

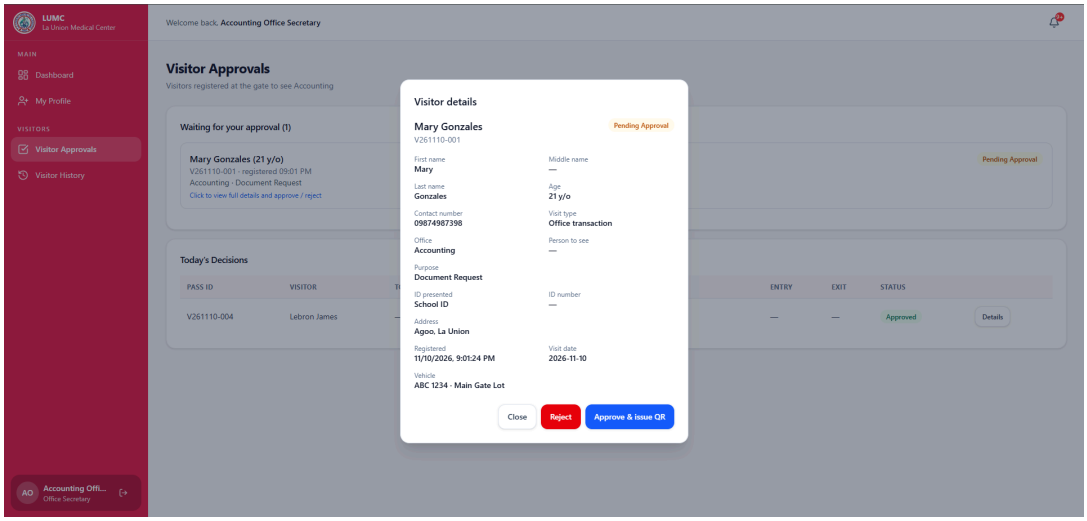

- Approve visitors for **other offices**
- See or approve **patient visitors** (guards handle those)
- Register visitors, scan QR, or manage today's gate list
- Work with patients, queues, doctors, beds, vehicles, or admin tools

4.3 Approve or reject a visitor

1. Open **Visitor Approvals**.

2. Click a pending visitor card to open the **full visitor information** (not just a short list row).
3. **Approve & issue QR** — guard can then print/show the pass.
   Reject — reason is **optional**.

4.4 History

Visitor History — search/filter past office visits. Use **Details** to expand information.

---

5. OPD & Admission Staff

Typical login: `opd`
Home: Dashboard
Note: This one role covers both OPD registration and admissions.

5.1 What you can do

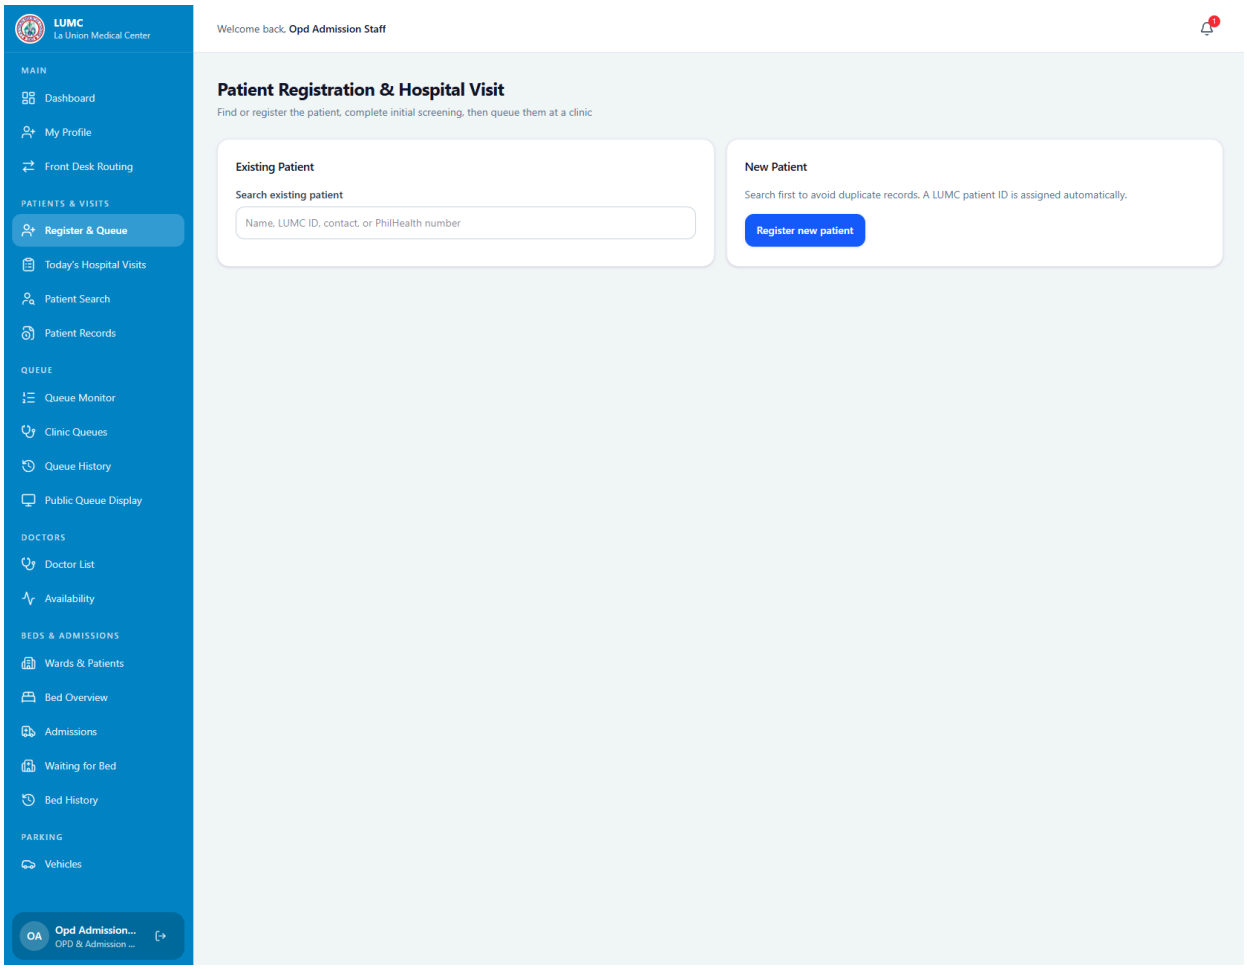

- **Front Desk Routing**; register patients and **hospital visits** (queued to a **clinic**, not a named doctor)
- Capture **initial screening at registration**; edit patient information (audited)
- **Today's Hospital Visits**, Patient Search / Records, Queue Monitor, **Clinic Queues**, Queue History
- Queue actions on **all clinics**: Call / Serve / Done / Skip / Undo / Cancel
- Open **Public Queue Display**
- Admit / assign bed / transfer / discharge; change bed status; Waiting for Bed; Bed History
- Doctor List; set **any** doctor's availability; **assign or reassign** doctors to clinics
- Record vehicles (same as guard)

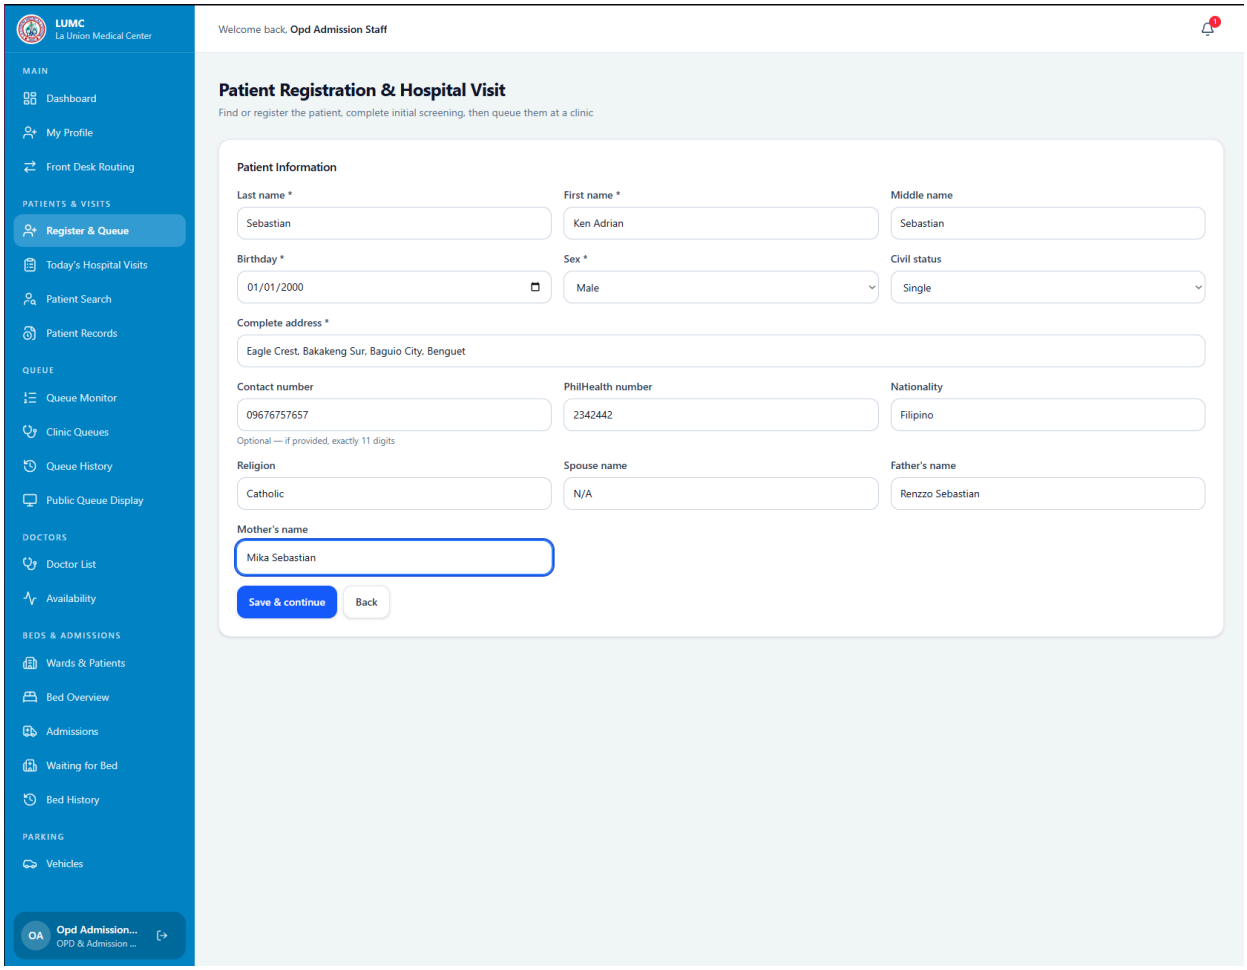

5.2 What you cannot do

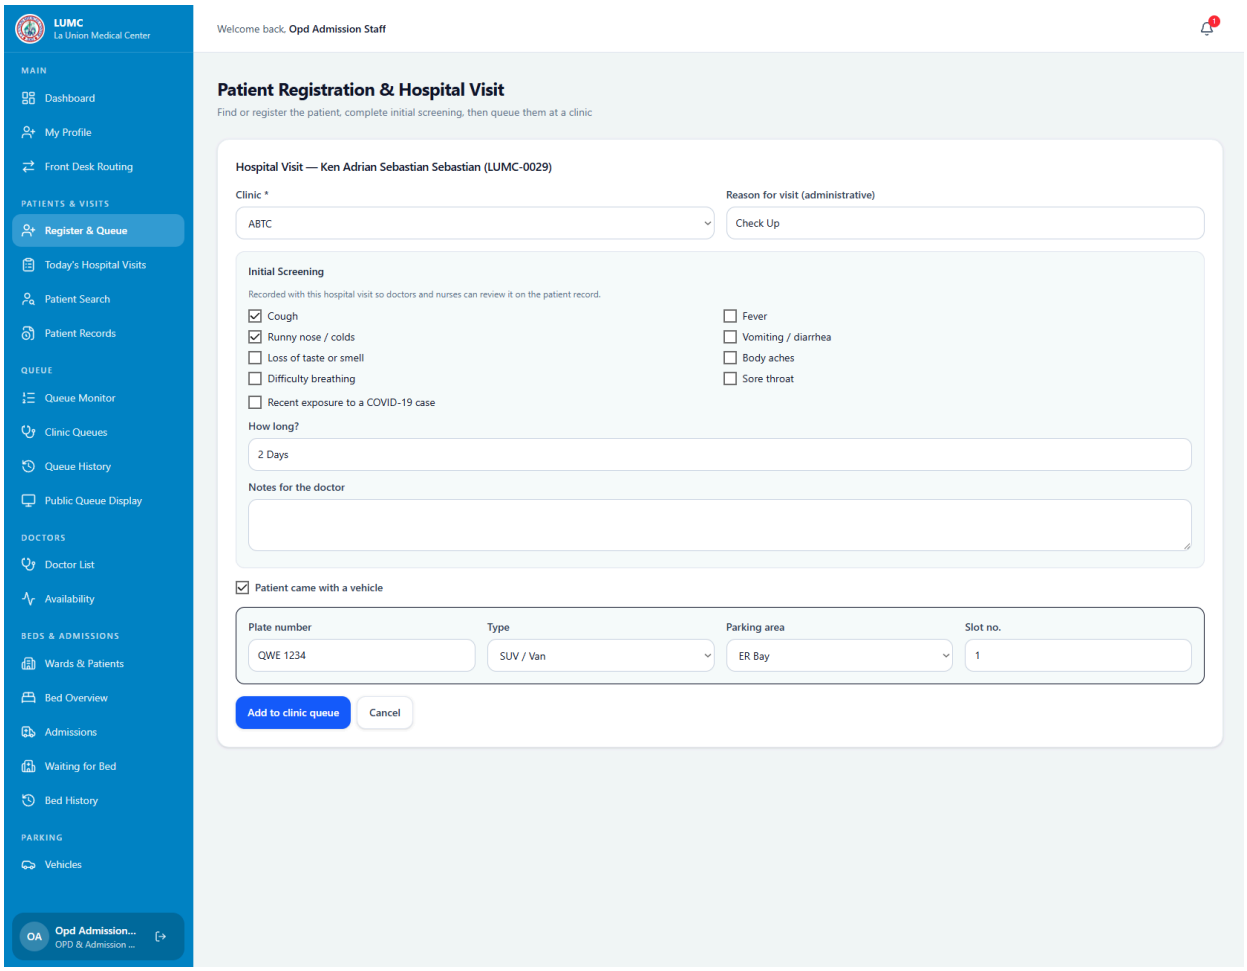

- Create doctor **user accounts** (admin does that under Users & Roles — you only assign existing doctor users to clinics)
- Approve office or patient visitors, or use guard QR tools
- Open administration: Users, Reports, Audit Logs, Backups, Parking Areas setup, Settings
- Change another staff member's role or password without being an administrator

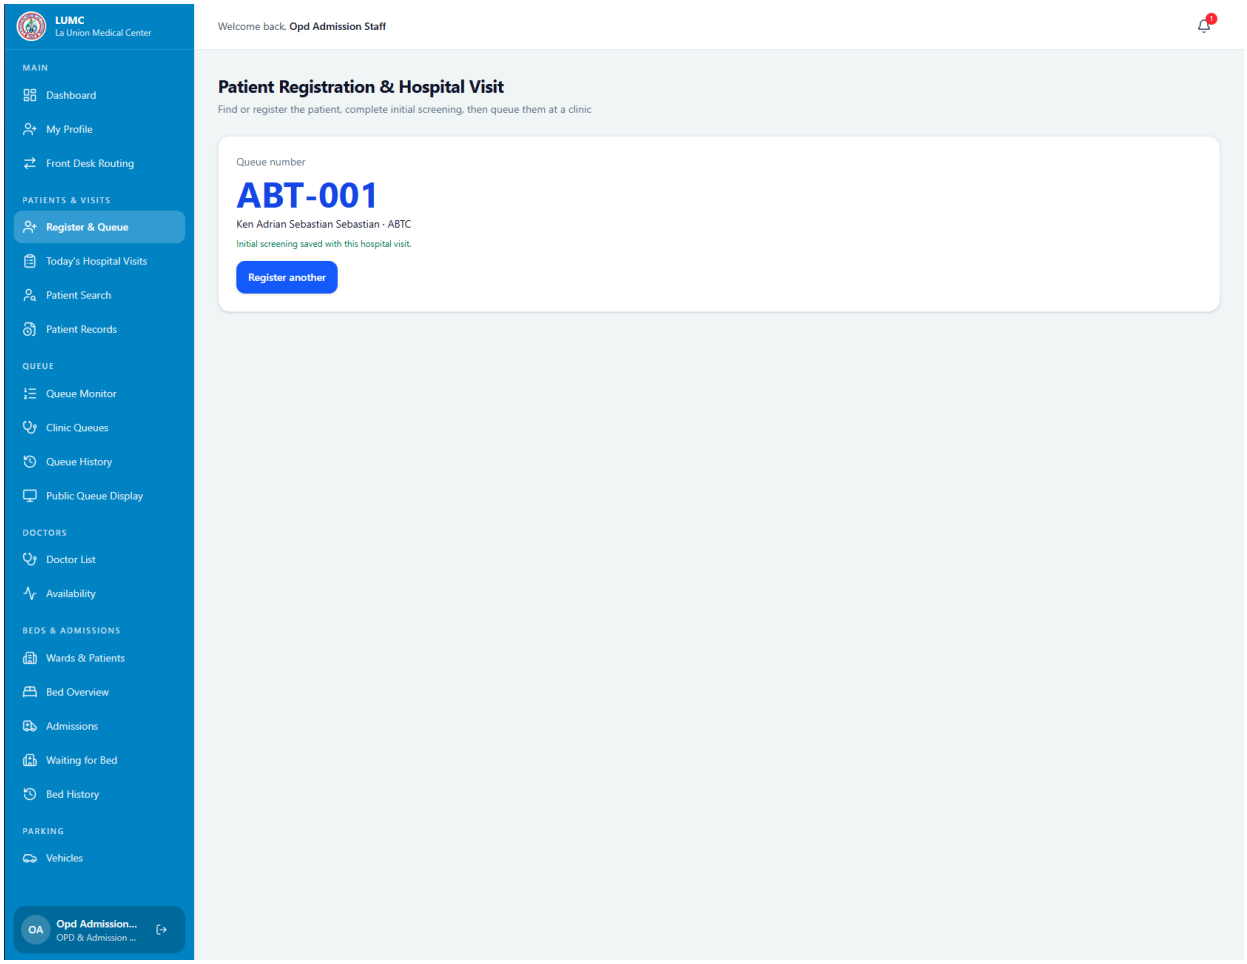

5.3 Register a patient and hospital visit

1. **Patients & Visits → Register & Queue**.
2. Search for an existing patient, or register a new one (first & last name required; middle name and contact optional).
3. **Minors** need a guardian (relationship dropdown + Other, 11-digit guardian contact).
4. On **Hospital Visit**:
    - Select **clinic** (full name, e.g. Nephrology).
    - Complete **Initial Screening**.
    - Optionally record a vehicle.
5. Submit → note the **queue number** (e.g. `MED-001`). There is no "print patient" step.

5.6 Public Queue Display

Queue → Public Queue Display (often on a TV)

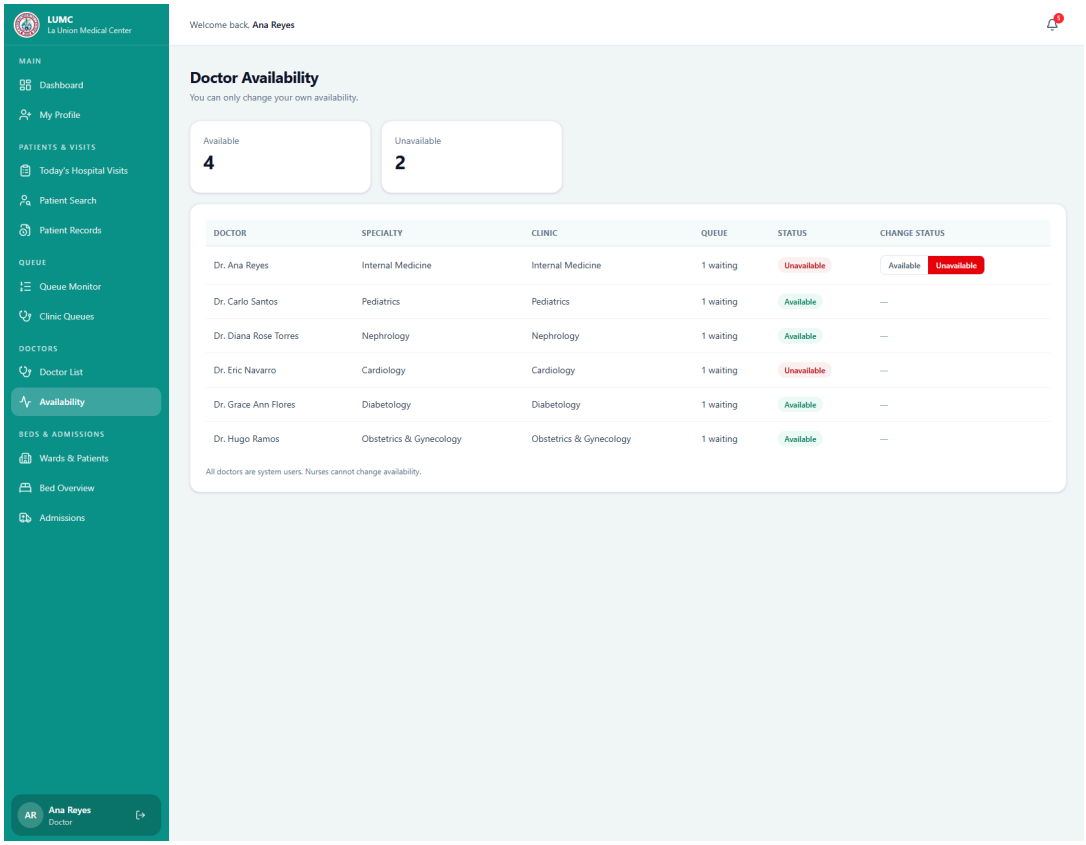

- Live date and time
- Full clinic names (e.g. Nephrology)
- **Queue codes only** — no patient names
- Doctor availability per clinic

5.7 Doctor availability

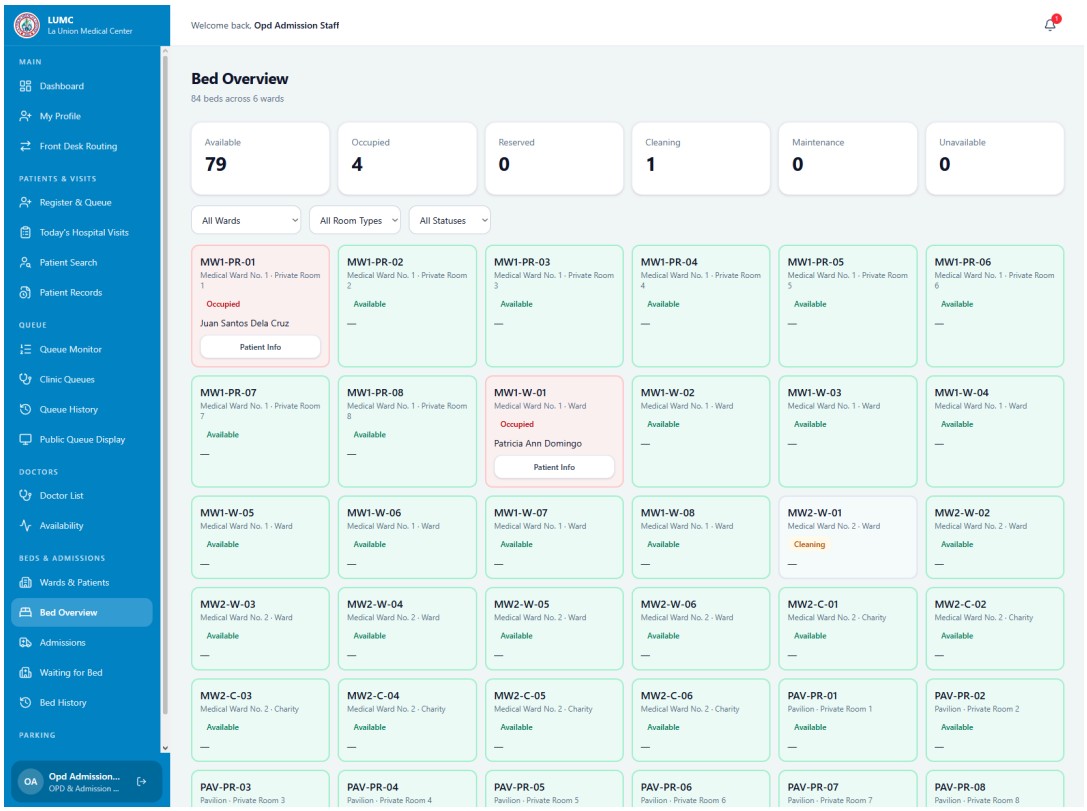

Doctors → Availability

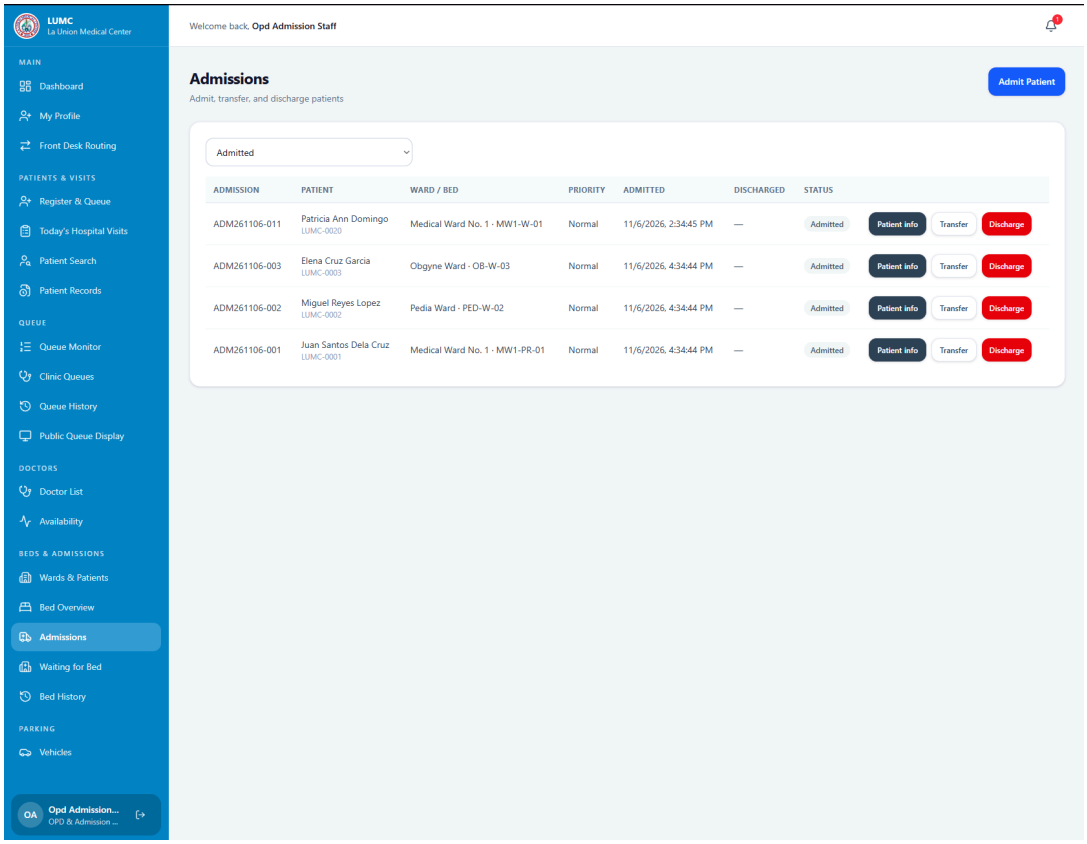

- Toggle Available / Unavailable for **any** doctor.
- **Assign Doctor to Clinic** — link an unassigned doctor account to a clinic, or **reassign** one who already has a clinic (specialty optional). Doctor accounts are created under Users & Roles (admin); you do not create free-text doctors here.

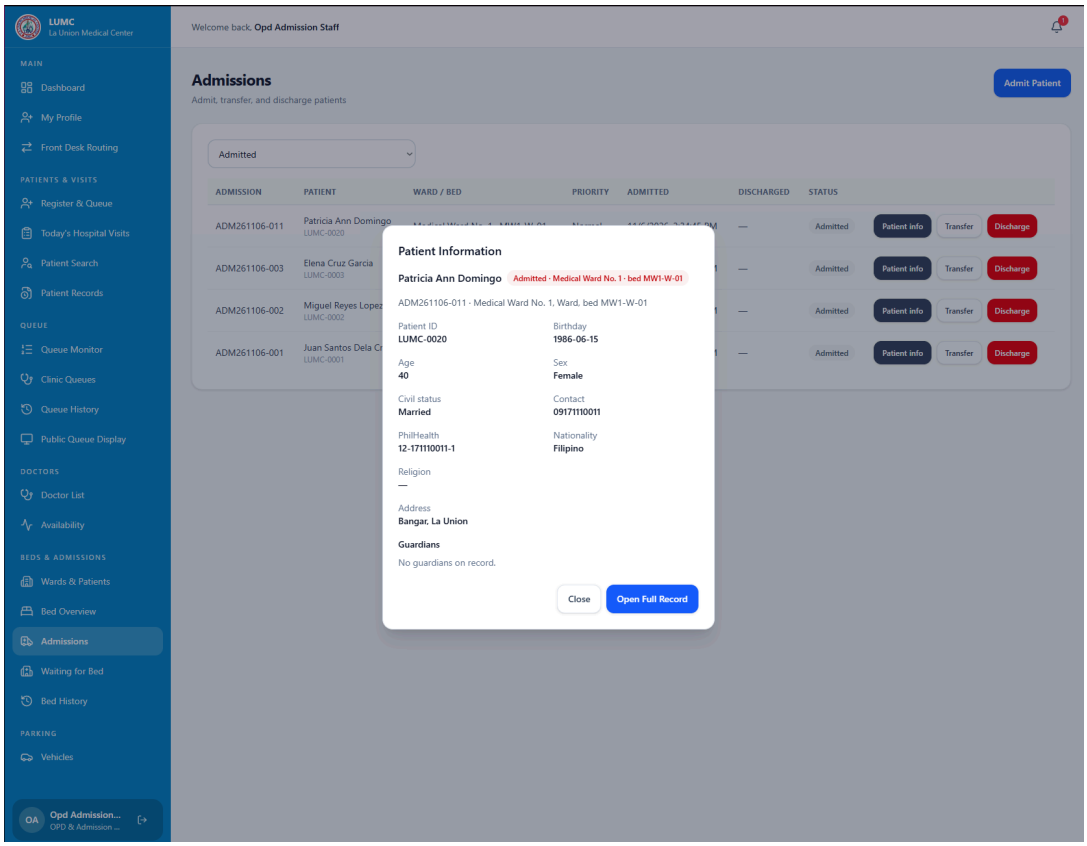

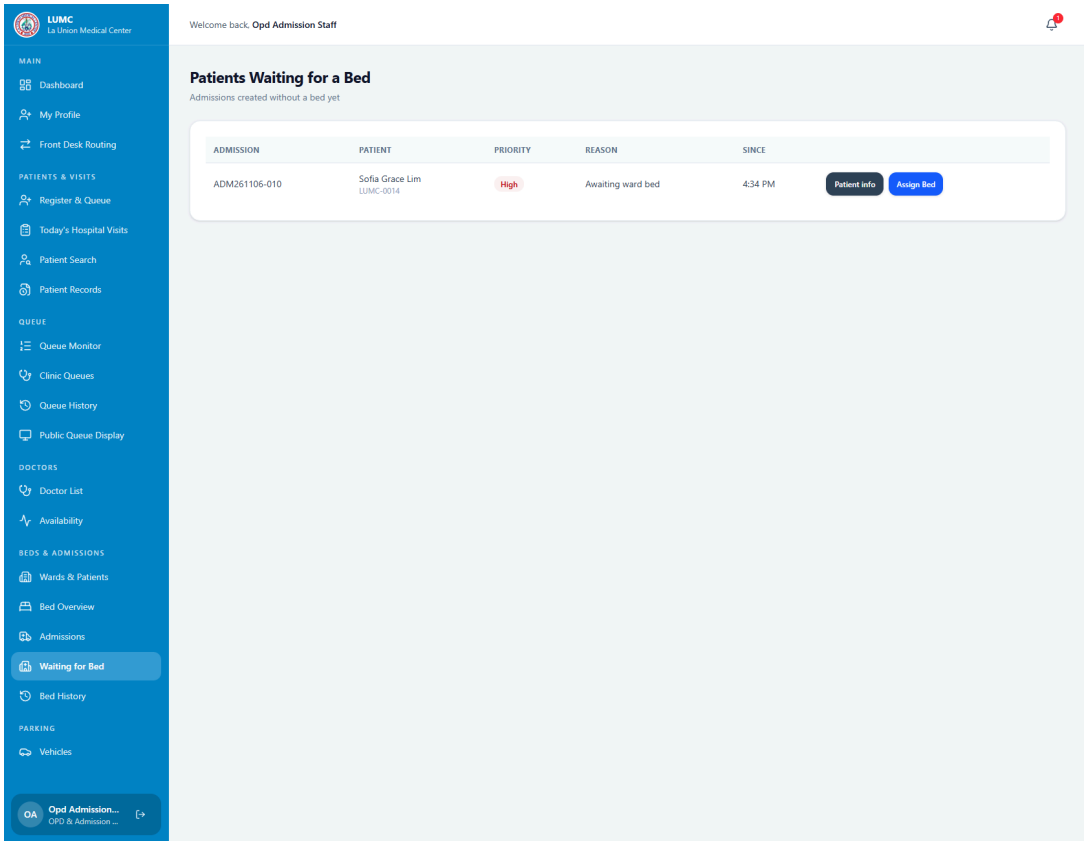

5.8 Admissions and beds

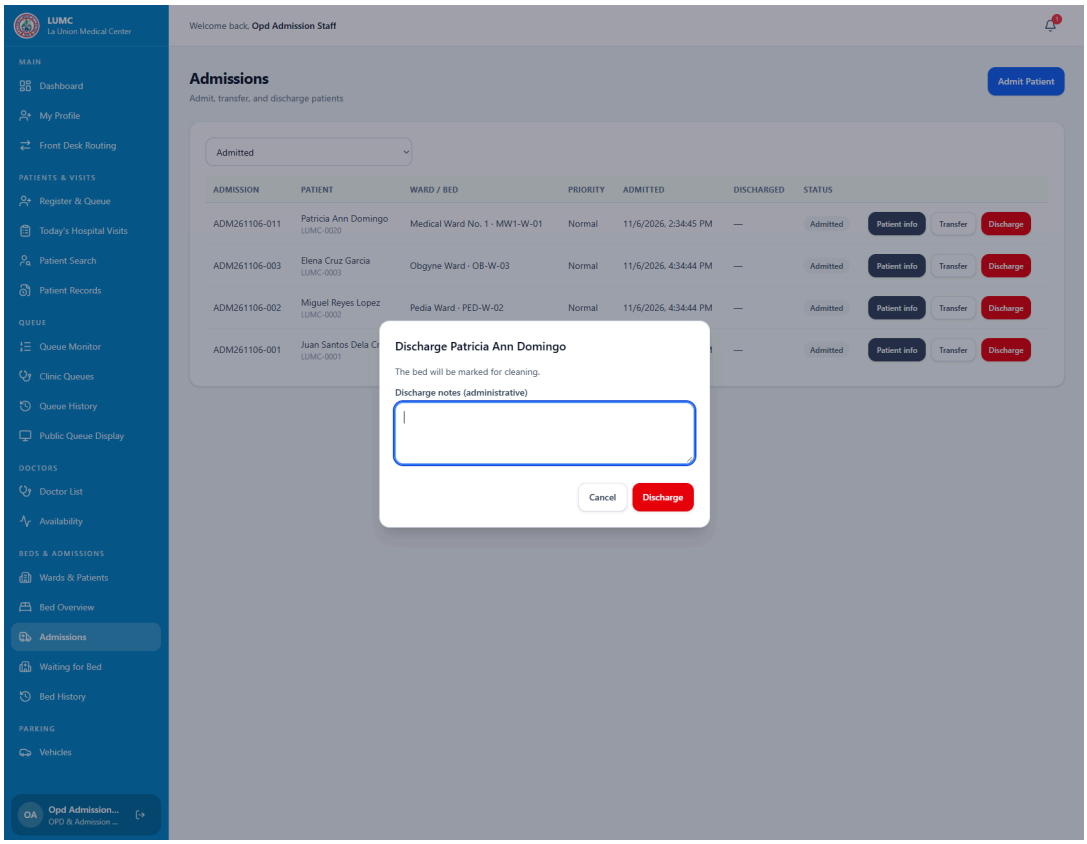

1. **Admissions → Admit Patient** (choose bed now or leave waiting).
2. Confirm assign / transfer / discharge; use **Undo** once when available.
3. Dark **Patient info** button opens a modal; **Open Full Record** goes to the full patient page.
4. Hover a bed on **Bed Overview** — highlight should be obvious.
5. Nurses/doctors can view; only OPD/admin change beds.

---

6. Nursing Staff

Typical login: `nurse`

6.1 What you can do

- **Initial Screening** page — Screen / Update symptom checklist for waiting patients
- View **Today's Hospital Visits**, Patient Search & Records
- **Clinic Queues / Queue Monitor** — Call / Serve / Done / Skip / Undo on **all clinics**
- View wards, bed overview, admissions, waiting for bed, bed history (**view only**)

6.2 What you cannot do

- Register new patients or create hospital visits
- Cancel queue tickets (OPD does that)
- Admit, transfer, discharge, or change bed status
- Change any doctor’s availability or assign doctors to clinics

- Use visitor, vehicle, public display, or administration pages

---

7. Doctor

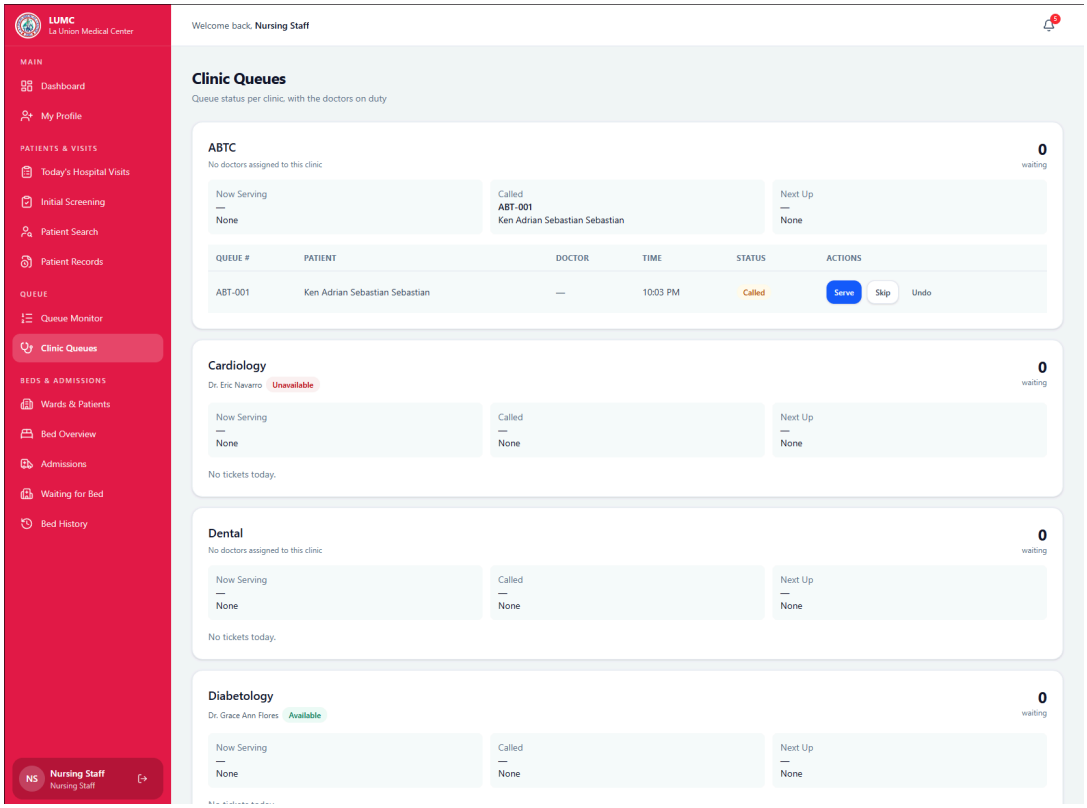

Typical logins: `dr.reyes` (Internal Medicine), `dr.santos` (Pediatrics), …
Your account must be **assigned to a clinic** (by OPD or admin) before you can act on queue tickets.

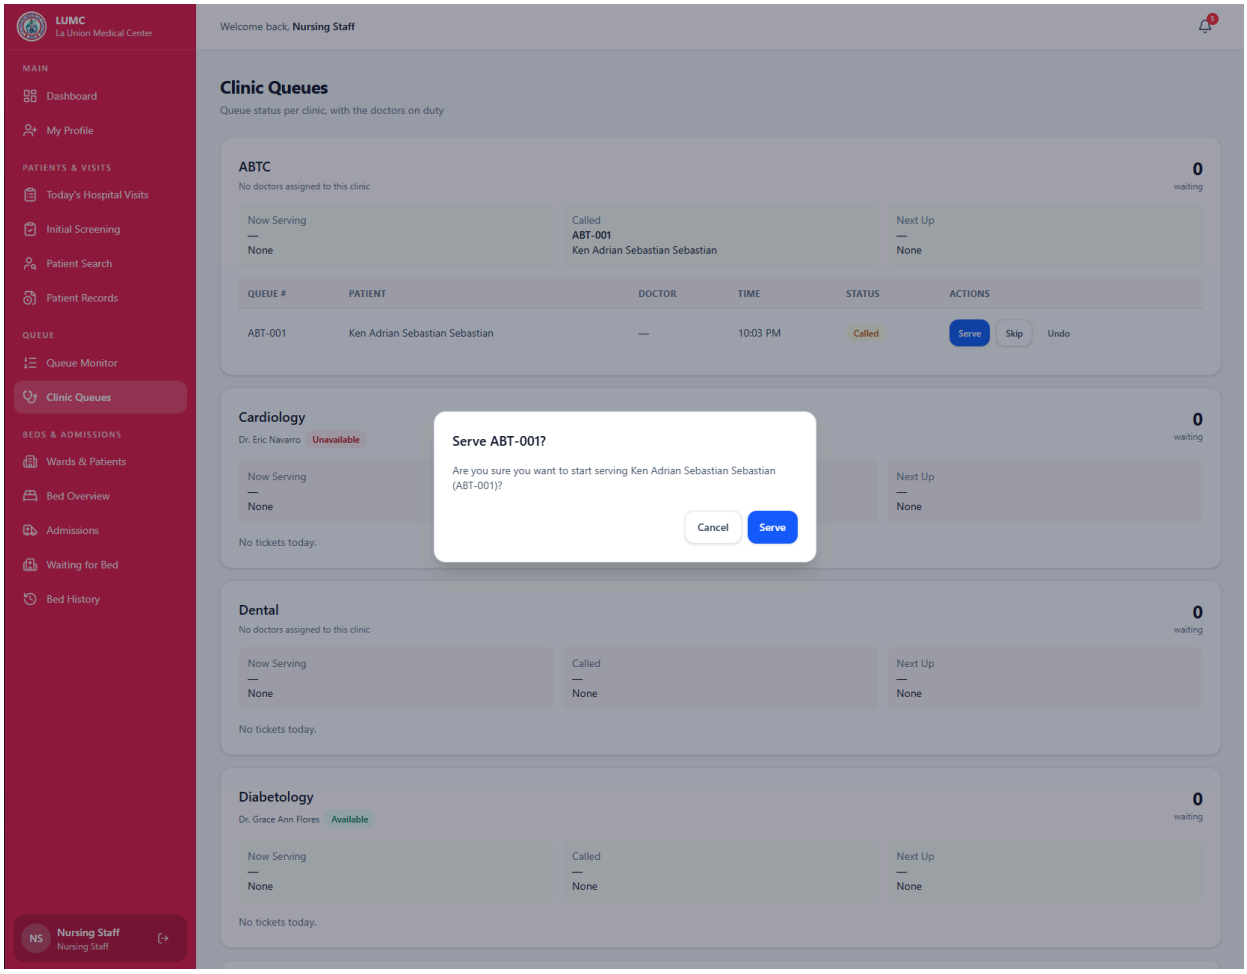

7.1 What you can do

- View **all** clinic queues and the doctor directory
- Call / Serve / Done / Skip / Undo **only in your assigned clinic**
- Change **only your own** Available / Unavailable status
- View patient search/records, wards, beds, admissions (**view only**)

7.2 What you cannot do

- Act on tickets in **other** clinics (UI shows **View only**; API also blocks it)
- Change another doctor's availability or reassign clinics
- Register patients, edit patient demographics, or run screening
- Admit / transfer / discharge or change beds
- Open public display, vehicles, visitors, or administration

8. Administrator

Typical login: `admin`

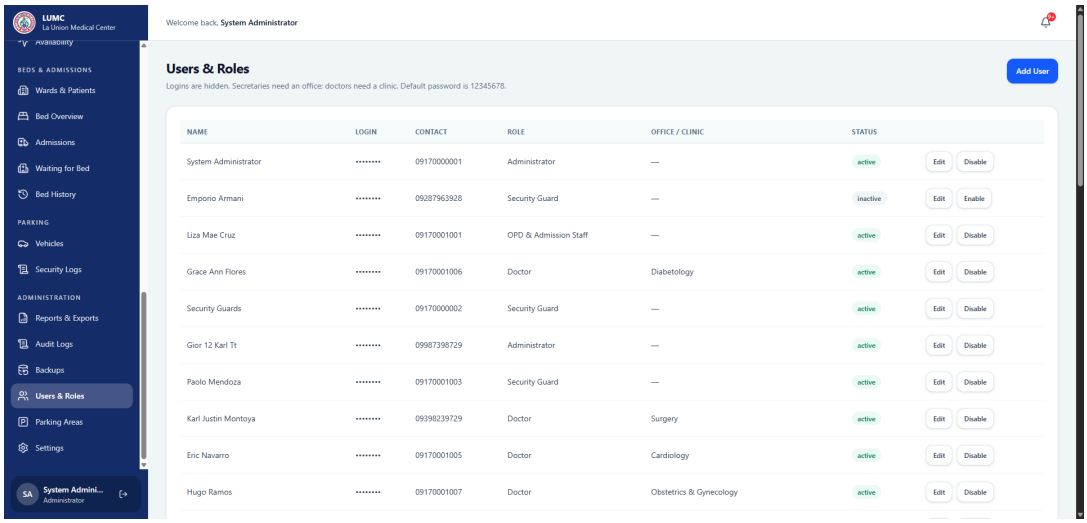

8.1 What you can do

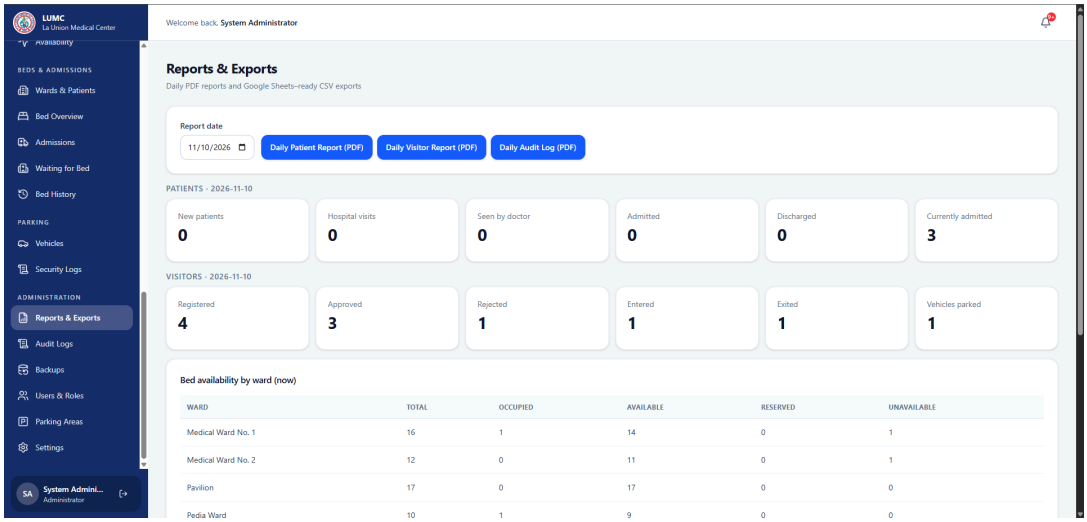

- **Everything** every other role can do (sidebar shows all modules)
- **Users & Roles** — create/edit users; secretary must have an **office**; doctor must have a **clinic**; logins stay masked; changing login/password needs the **admin password**; default new password is `12345678`
- **Reports & Exports**, **Audit Logs**, **Backups**, **Parking Areas** (add/edit lots), **Settings** (e.g. minor age)

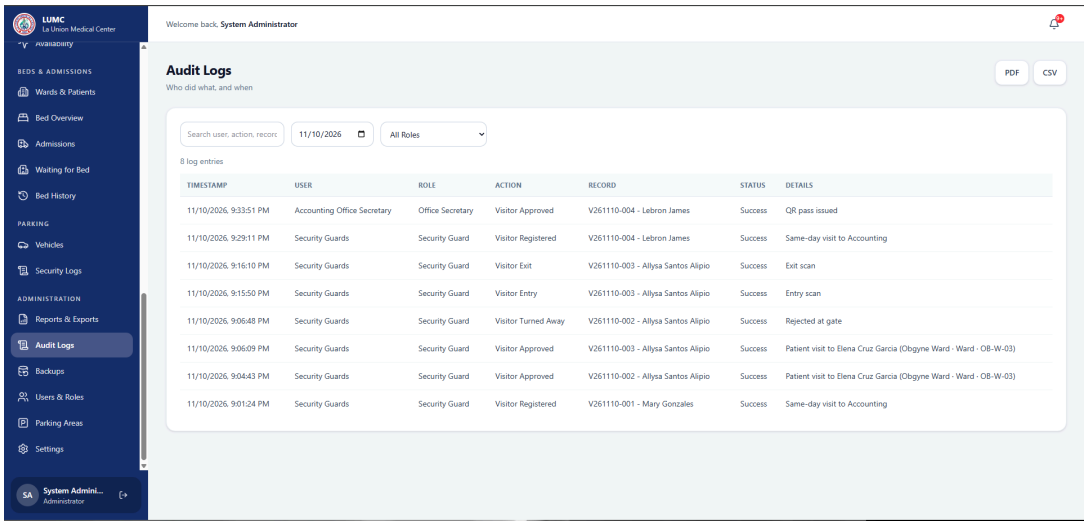

8.2 What you cannot do / limits

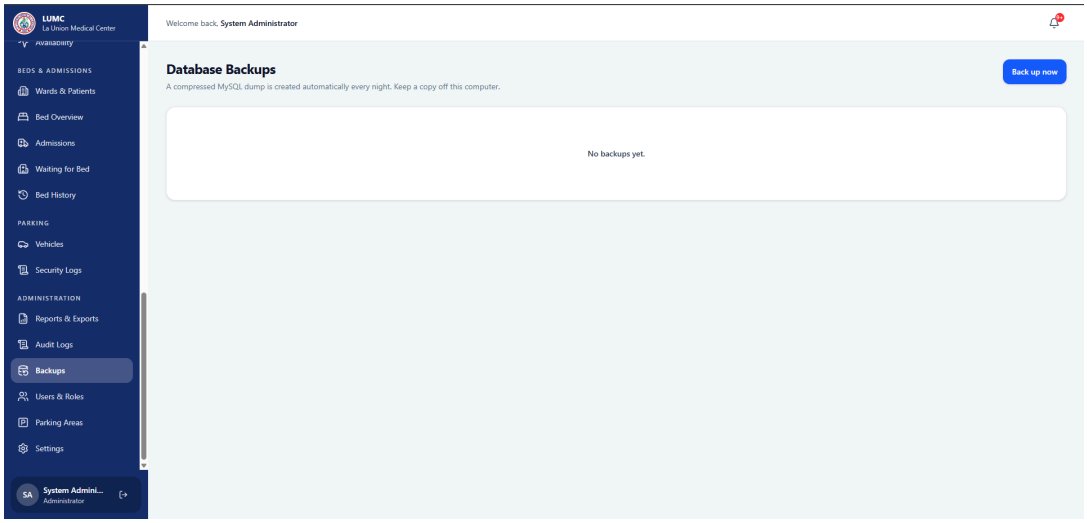

- There is no “higher” role — you are not blocked from staff pages

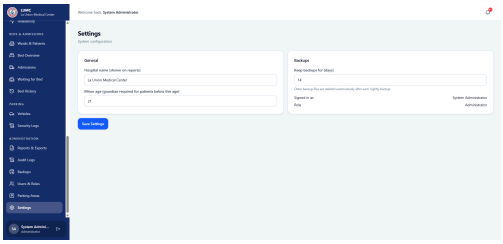

- You still follow the same **data rules** as everyone else (11-digit contacts when filled, minors need guardians on patients, queues stay clinic-based, public display shows codes only)
- Prefer creating real role accounts for daily work; use admin mainly for setup, users, and audits

9. Quick reference — who can do what

✓ = allowed · blank = not allowed · **Own** = limited to own office/clinic/self

Task	Guard	Secretary	OPD	Nurse	Doctor	Admin
Front Desk Routing	✓		✓			✓
Register visitors / scan QR / today's visitors	✓					✓
Approve **office** visitors		**Own**				✓
Approve **patient** visitors	✓					✓
Visitor history	✓	**Own**				✓
Register patient + hospital visit (+ screening at reg.)			✓			✓
Edit patient information			✓			✓
Initial Screening page (nurse)				✓		✓
View visits / patient search & records			✓	✓	✓	✓

Task	Guard	Secretary	OPD	Nurse	Doctor	Admin
Queue actions — **all** clinics			✓	✓		✓
Queue actions — **own clinic only**					**Own**	✓
Cancel queue ticket			✓			✓
Queue history			✓			✓
Public Queue Display			✓			✓
Doctor list			✓		✓	✓
Change **any** doctor availability			✓			✓
Change **own** availability only					**Own**	✓
Assign / reassign doctor → clinic			✓			✓
Create doctor **user** account						✓
Admit / transfer / discharge / bed status			✓			✓
View beds / wards / admissions			✓	✓	✓	✓
Vehicles	✓		✓			✓
Security logs	✓					✓
Users / reports / audit / backups / parking areas / settings						✓

Hard limits (all non-admin roles): the sidebar hides pages you cannot use; opening a forbidden URL shows a notice and sends you home. Doctors without a clinic assignment cannot run queue actions until OPD/admin assigns them.

---

10. Tips & rules

- **Login**, not email.
- **Contact numbers:** optional; if provided, must be **11 numerical digits**.
- **Middle name:** optional for patients, visitors, and users.
- **Visitors:** same day only; visitor minors do **not** need a guardian.

- **Patients who are minors:** guardian required (relationship list + Other).
- **Queues** are per **clinic**; public display shows **codes only** (privacy).
- **Secretary** = own office only · **Doctor** = own clinic for actions · **Nurse** = queues yes, beds view-only · **OPD** = operational staff, not system admin.
- Screens refresh often — leave Clinic Queues / Public Display open for live updates.
- Forbidden pages show an on-screen notice and return you to your home page.

Document control

Item	**Value**
Product	La Union Medical Center (LUMC) Operations System
Audience	Hospital staff (all roles)
Screenshots folder	`docs/manual-screenshots/`
Capture checklist	`docs/manual-screenshots/README.md`
Version note	Align with current feature-freeze build; update screenshots after major UI changes
